

Summer 1
YEAR 1
NEWSLETTER

GLOBAL WEEK

We are very excited to be travelling to a different place when we come back to school. Maple Class will learn what it is like in Iceland, and Cherry Class, Poland. We will be focusing on the geography of the area and comparing it with that of where we live. The children will experience art, music and food from their country and write a postcard to someone in the opposite class!

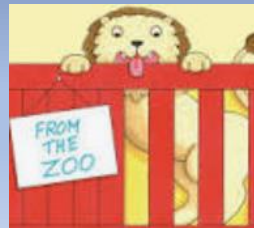

Year 1 TRIP

On Wednesday 15th May, we will be going to Manor Farm! More details to follow in a letter shortly.

Year 1 SHOW!

At 2pm on 22rd and 23rd May we will be performing our show – Dear Zoo!

We really hope you can come! More details to follow about costumes etc.

PROJECT

Our project this term is 'Animals'. With a Science focus we will be learning about the structure of animals and how they are classified and also whether they are carnivores, herbivores or omnivores. We will also have fun learning about our senses!

Our Learning Logs will focus on the knowledge and Understanding for this topic too. Many thanks for your support in completing homework – it really helps the children to practice and remember what we have taught them at school.
