

Our Visit to William Lilley

We went to William Lilley to find out a little bit more about them. We all had a ride in Mrs Clemens' car. When we got there we went to the staffroom and had a drink. After that Miss McMahon showed us around all of the classrooms and we asked the classes some questions. Then we had dinner and some delicious pudding that we hadn't had at school before! We went outside to play and made some new friends. After that we had a photograph and went back to school. We loved our time at William Lilley and learned lots about their school.

Their school

William Lilley School is an older building than ours. It has a hall like ours but they have a really high ceiling. They have the same number of classes as us. Our classes are named after trees and at William Lilley the classes are named after animals. They have a really big playground with lots of things to do.

Learning at William Lilley

The children at William Lilley really enjoyed learning. They told us all about their pirate topic and they enjoyed multiplication and division in maths.

Children at William Lilley

The children at William Lilley were really kind and welcoming. We made lots of new friends and they all had good behaviour. They wear a school uniform like we do but ours is red and theirs is blue and yellow.
